Brief Description	In this assessment task, students will complete a test in class. Students will be able to access their maths book only during this task, and as such should ensure all notes and examples are included in their work book each lesson. Students must provide their own scientific calculator for this task.	In this assessment task, students will be issued with a 'real life' and must plan each financial aspect of their given situation. Students will be guided and scaffolded through all aspects of the task, and all lessons will be linked to the mathematics needed in this task. This task will be completed in class time and handed in via hard copy.	In this assessment task, students will complete a variety of problems related to their study of Trigonometry and Scale Drawing in Term 2 and Term 3. Students will show all working out for each problem and will be able access print and online resources to complete this task. This task will be completed in class and handed in as a hard copy.	Students will complete a formal examination in class time under test conditions. Students will be able to use a reference sheet during this task and will participate in targeted lessons to create a quality reference sheet in the lead up to the examination. Students must provide their own scientific calculator for this task.
