Year 10 Assessment Schedule 2024

Course: Science

Head Teacher: Sam Ruzicka

	Task 1	Task 2	Task 3	Task 4
Due Date / Date of Task	Term 1 Week 6	Term 2 Week 3	Term 3 Week 3	Term 3 Week 9
Topic	Investigations	Chemical World	Physical World	Living World
Type of Task	Independent Research Project	Knowledge, Practical and Data Analysis	Data analysis and Knowledge	Yearly Exam
Brief Description	Students design, perform, obtain and analyse results on an investigation related to science.	Students will independently work through a number of practical activities related to the Chemistry content being learned in science. It will involve hands on tasks and data analysis.	Students will be given stimulus material, related to the Energy content studied in class, to answer various types of data analysis questions and knowledge questions.	Students will respond to multiple choice, short and longer response questions on science work learned throughout the year.
Components	Skills in working scientifically.	Knowledge and understanding related to chemical reactions. Skills in working scientifically.	Knowledge and understanding related to energy. Skills in working scientifically.	Knowledge and understanding related to biology, chemistry and physics. Skills in working scientifically.
